

# WORK STAND 1140

## A high-quality, robust and adjustable work stand

Work stand 1140 is designed to provide a stable and ergonomic working position. The solid steel construction combined with adjustable height makes it a reliable solution for demanding workshop environments.

### KEY FEATURES

- Adjustable working height
- Perforated stainless steel top plate, for reduced weight and improved grip.
- Welded steel frame construction.
- Base plates for secure floor mounting.
- Suitable for workshop, industrial and production environments.

### TECHNICAL SPECIFICATIONS

Frame material:	S235JR HUP 40x40x4 and 30x30x3
Surface finish stand:	Sandblasted and powder coated
Top plate material:	Stainless steel AISI304
Height (mm):	Adjustable 1140, 1040, 940, 840, 740, 640
Width (mm):	400
Length (mm):	990
Load capacity (SWL) max height:	1000 kg (evenly distributed load)
Load capacity (SWL) lowest position:	1500 kg (evenly distributed load)
Color:	Red (RAL3000)
Weight:	44 kg

### APPLICATIONS

- Assembly and sub-assembly work
- Temporary or permanent workstations
- Production lines
- Workshops in general
